

FSOMA values and respects the privacy of its members.

First - FSOMA does not share your personal contact information with anyone. Members' public profile is based on your business and may be found under the "Find an Acupuncturist" tab. This profile is available to anyone clicking the link and has information about your practice only. You have total control over what is listed there. [Click here](#) for instructions on editing your Public Profile.

Second - FSOMA does not comment publicly on the personal lives of our members. This includes commenting publicly on past or present members' personal or criminal complaints, because these too are private concerns.

It is reasonable and accurate to conclude that at a time of personal or professional crisis for a colleague, FSOMA's directors extend their heart-felt desire for a speedy and favorable resolution or recovery.

FSOMA would hope for an outcome that promptly secures our colleague's health, reputation and privileges; and an outcome that concludes with restoring our friend and colleague to again fulfill his/her passion for patient-care and healing.
